

# Building a New Gold Camp in Atlantic Canada

**Williams Brook  
Gold Project**

New Brunswick,  
Atlantic Canada

April 3, 2024

[explorationpuma.com](http://explorationpuma.com)

TSXV : PUMA / OTCQB : PUMXF

## Cautionary & Forward-Looking Statement

This presentation may contain forward-looking statements such as use of words or phrases such as: is poised to, historical resource estimates, to be appointed, to create, up to, expected to cost, yet to be defined, etc. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Puma Exploration Inc. to be materially different from actual future results and achievements expressed or implied by such forward-looking statements.

Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date the statements were made, except as required by law. Puma Exploration Inc. undertakes no responsibility to publicly update or revise any forward-looking statements. These risks and uncertainties include that actual results obtained by Puma in the future may differ materially from the historical results alluded to in this presentation by others, which historical results have not been fully verified by Puma.

When grab samples are mentioned, the reader is cautioned that grab samples are selective by nature and as such, may not represent the true metal content of the mineralization.

In addition, readers of this presentation should review the risks and uncertainties that are described in the quarterly and annual reports and in the documents submitted to the securities administration. Neither the Toronto Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this presentation.

Currency - Unless otherwise indicated, all dollar values herein are in Canadian \$.

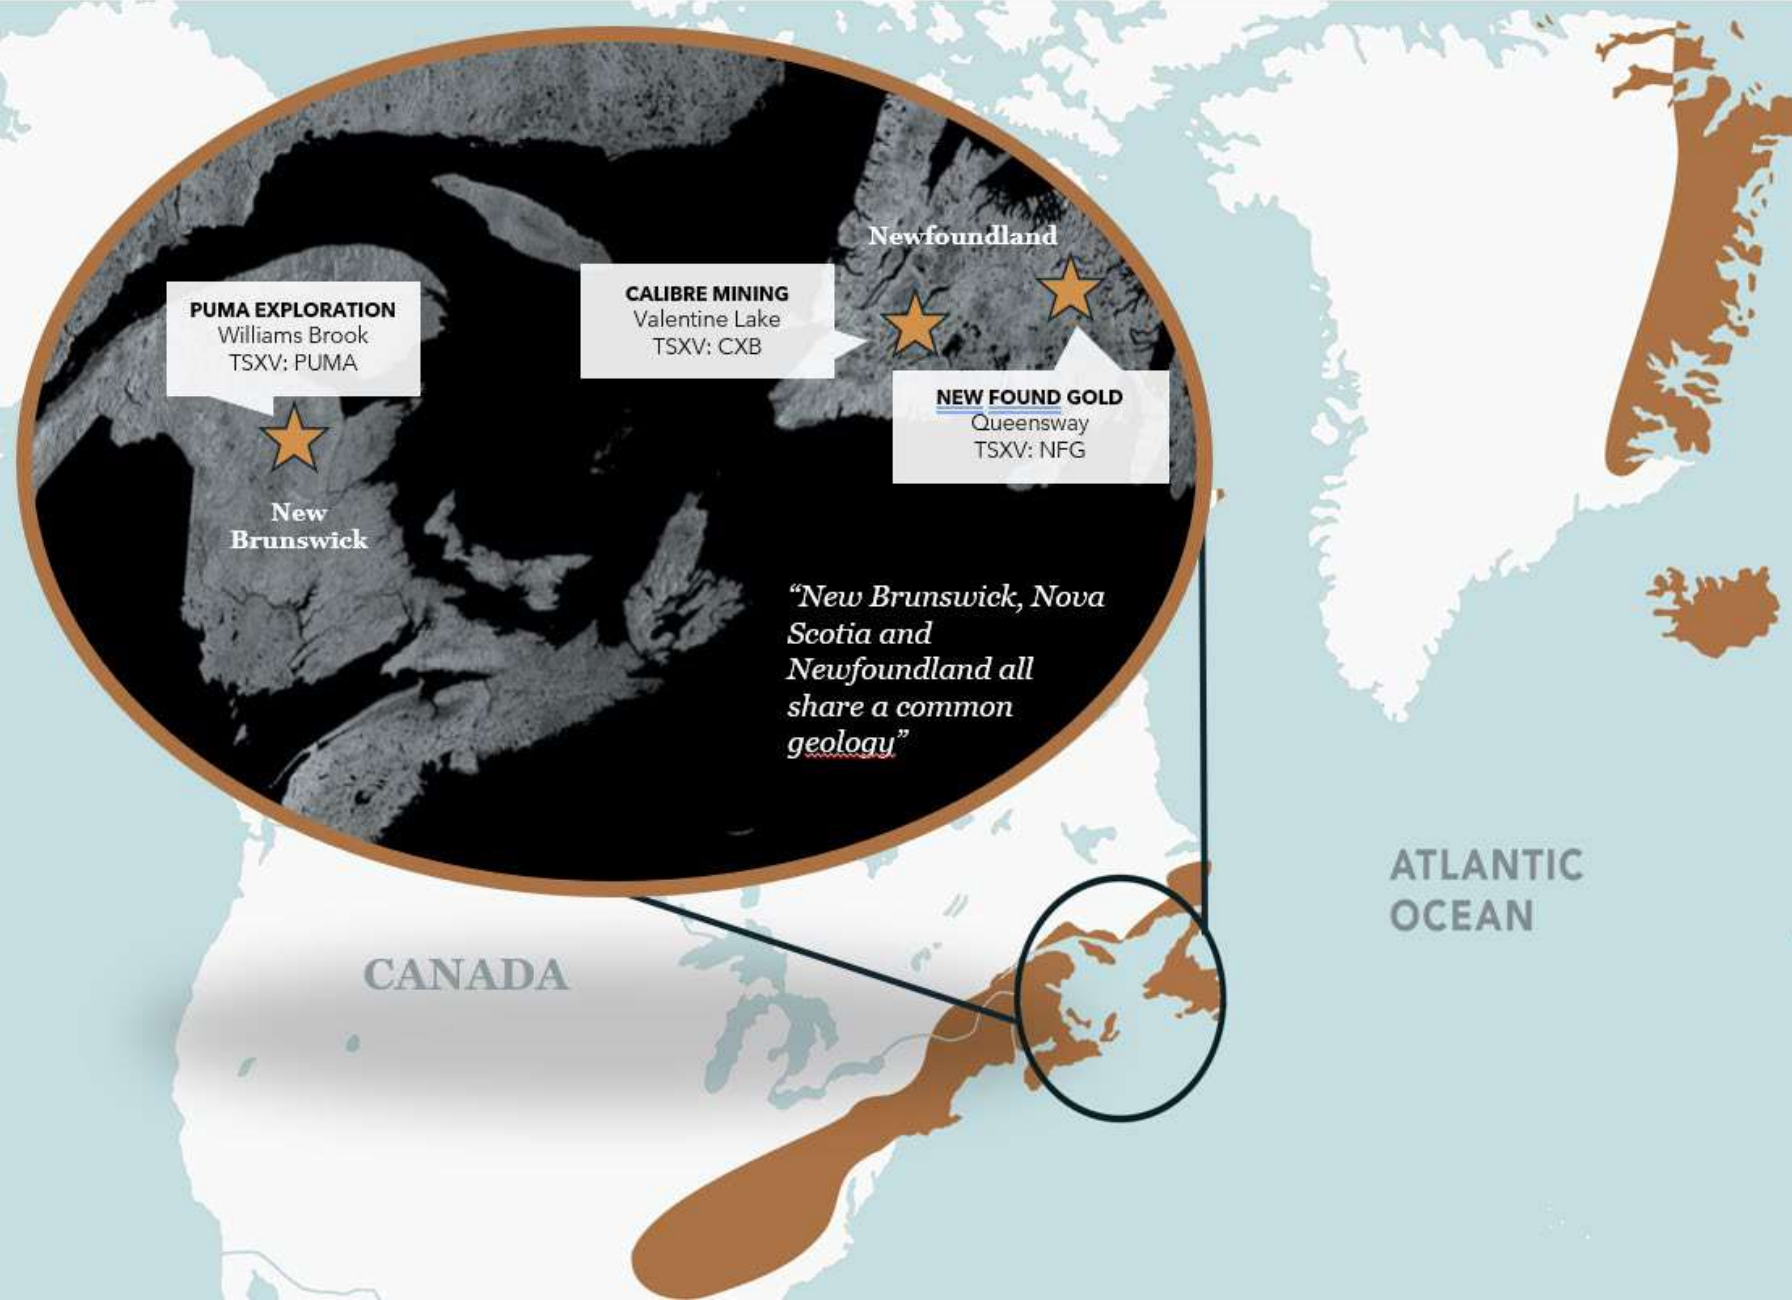

## On-Site Quality Assurance/Quality Control ("QA/QC") Measures

Grab and drill core samples are bagged, sealed, and sent to the facility of ALS CHEMEX in Moncton, New Brunswick, where each sample is dried (grab sample), crushed, and pulped before being fire-assayed (Au-ICP21). The remaining coarse reject portions of the samples remain in storage for further work or verification as needed. As part of its QA/QC program, the Company inserts external gold standards (low to high grade), blanks and duplicates for every batch of samples. All samples over 10 g/t gold or with abundant visible gold are analyzed with a gravity finish (Au-GRA22). Check assays are routinely performed for samples with visible gold to ascertain the gold content of the mineralization zone.

## Qualified Person

Unless stated otherwise herein, all scientific and technical data contained in this presentation has been reviewed, approved and verified by Dominique Gagné, P.Geo, a qualified person as defined by Canadian National Instrument 43-101 standards.

# Hot Bed of Activity In Atlantic Canada

## Projects in Canada and Australia with similar geological environments and potential

- Gold orogenic system - Epizonal to mesozonal.
- Rock types - Interbedded turbidite sequence of sandstones, siltstones, and shales. Volcano-sedimentary rocks.
- Structural control - Compression/transpression environments.
- Age - Devonian to Ordovician
- Metal zonation - Potential for km scale depth extent

# Major Landowner with Significant Upside

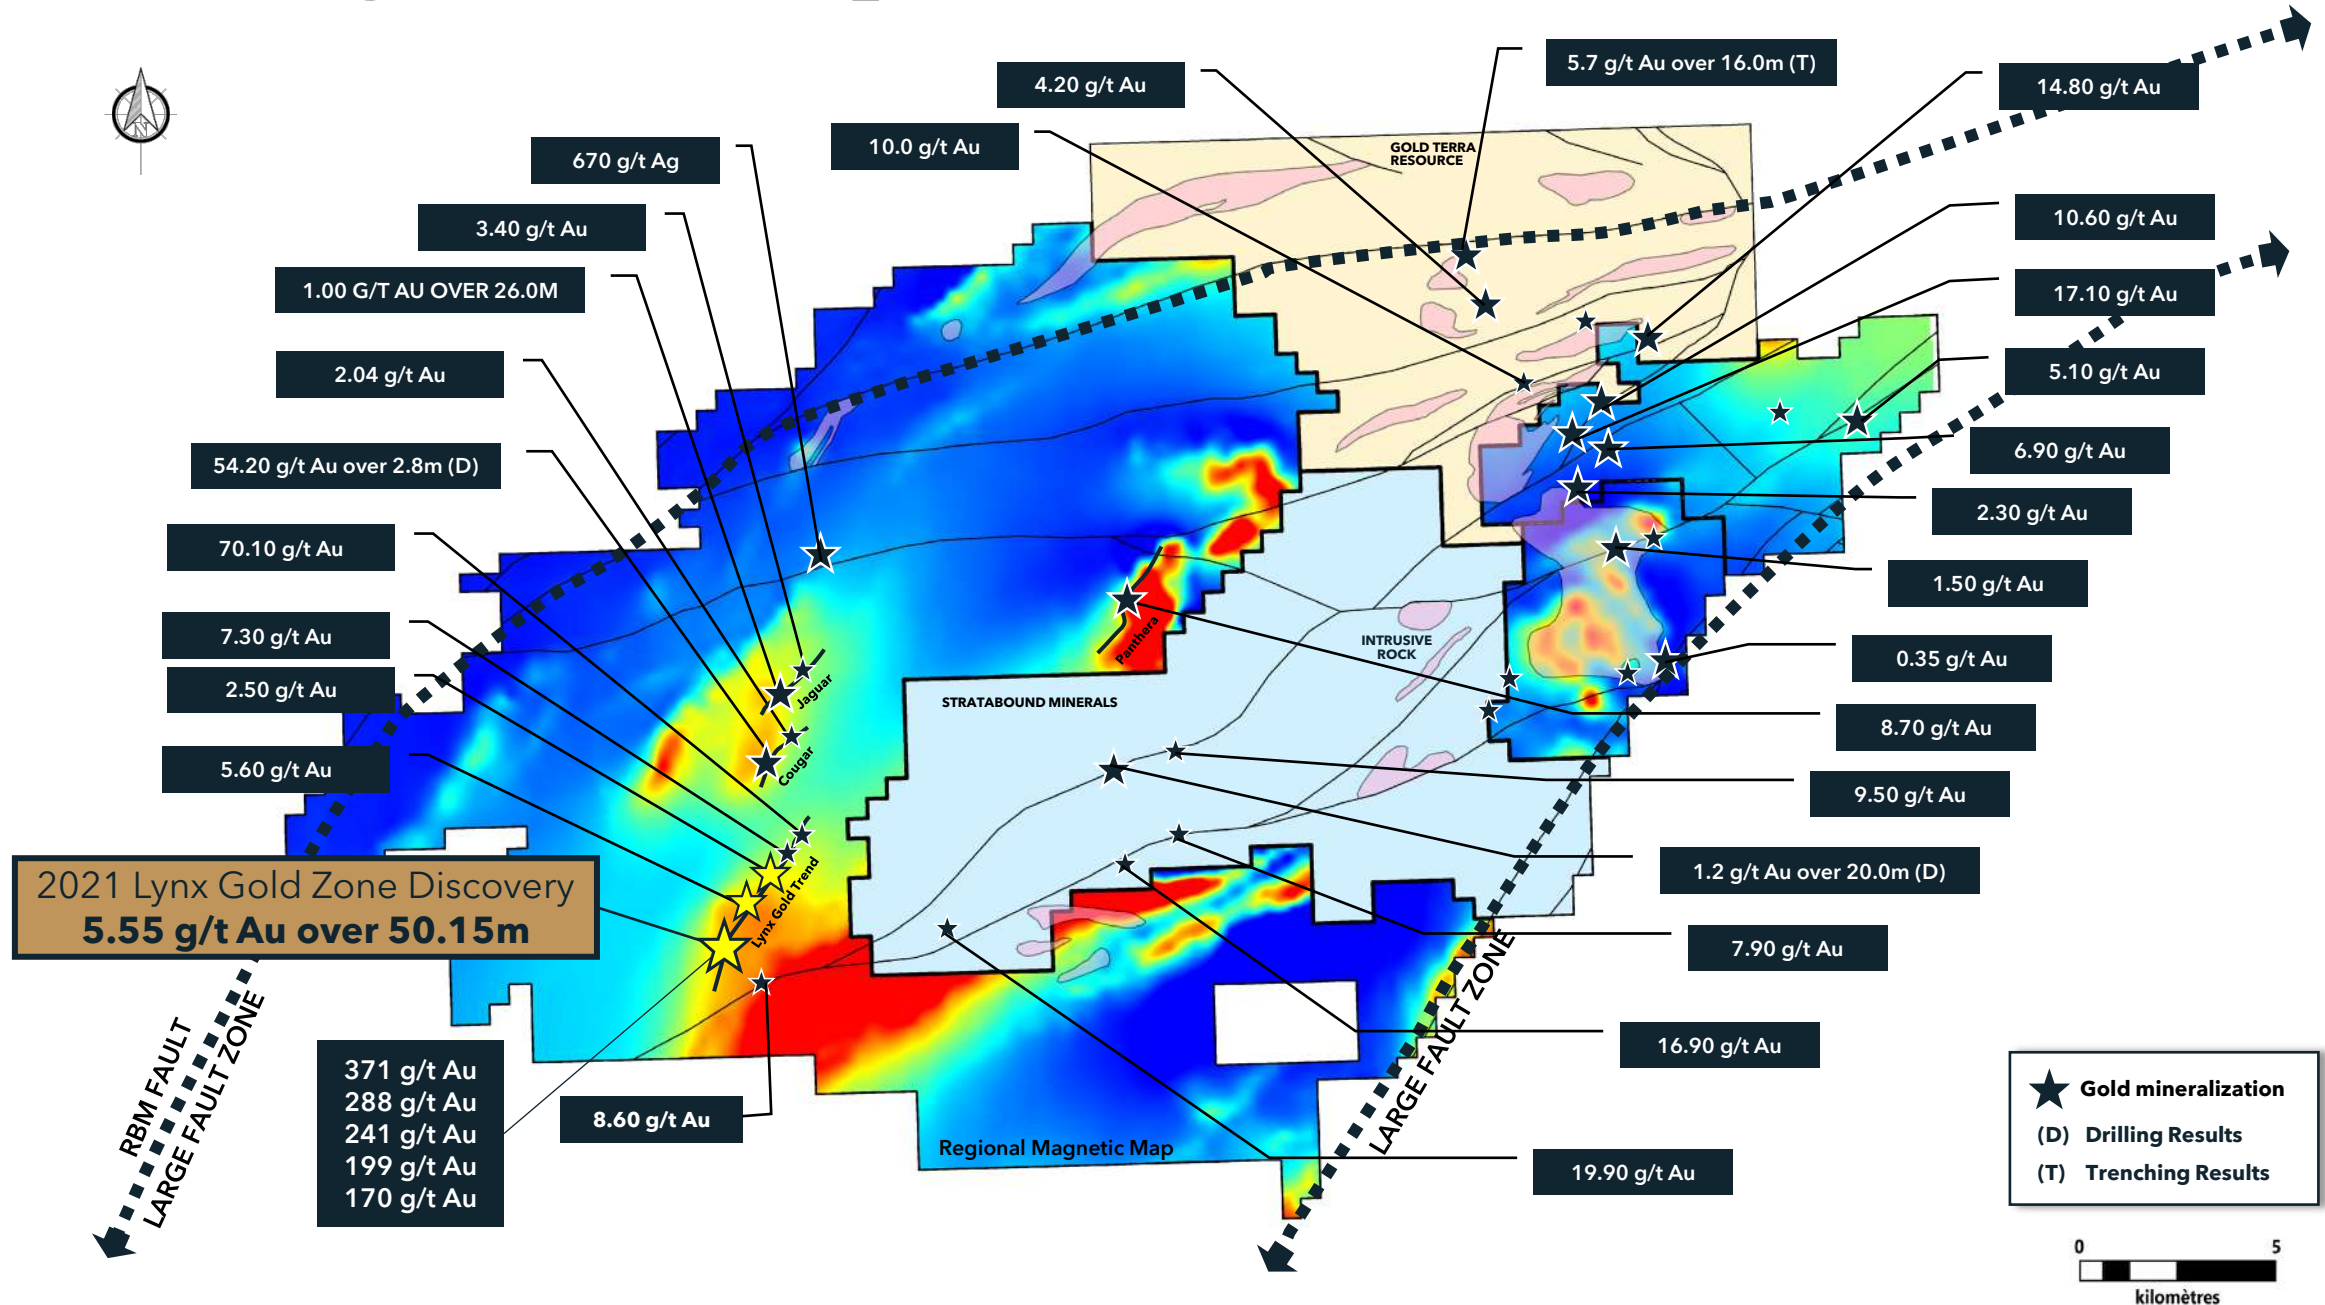

Puma's **DEAR** strategy to increase value while limiting share dilution:

- **D**evelopment
- **E**xploration
- **A**cquisition
- **R**oyalties

Exposure to base metals – significant **equity position** in Canadian Copper (CSE: CCI) and Raptor Resources

# Building a Gold Camp at Williams Brook

## Lynx Gold Zone ("LGZ")

- Low-cost exploration.
- Only 1 m of overburden - easily removed.
- Collaboration with forestry company.
- High-grade gold mineralization in quartz veins starting at surface.
- Extensive surface sampling, mapping and data collection before drilling.

# 2023 Lynx Drilling

## WB23-145 (80.6m - 82.7m)

Qtz vein with VG + sulphides (Py-Cpy-Ga-Sph)

# 2024 Drilling – Extend Mineralization along Lynx Gold Trend

# 2024 Exploration Program at Williams Brook

- Complete an inaugural drilling program (2,000 m) at the Tiger Gold Zone.
- Extend the high-grade gold intercepts drilled in 2023 at the Lynx Gold Zone to depth (2,500 m drilling program).
- Extend the stripping and mapping of the Tiger and Cheetah gold zones.
- Continue to improve gold recoveries with conventional processing techniques.
- Undertake regional exploration programs to new areas of the property to identify new targets.

## Panthera Gold Zone (“PGZ”)

Large soil survey completed in 2021  
Early-stage area with significant gold potential.

# The Puma Team

**Marcel Robillard, P.Geo. /  
President & CEO, director**

Over 25 years experience in junior exploration. Past President of Geominex, a geology consulting firm. Has led Puma since 2009.

**Réjean Gosselin /  
Director & Executive Chairman**

Seasoned mining executive with over 42 years experience leading junior exploration companies.

**Dominique Gagné, P.Geo /  
Chief Geologist**

Over 17 years experience on grassroots to advanced exploration projects in Eastern Canada. Puma's technical team lead since 2013.

**Mia Boiridy /  
Head of Investor Relations & Corporate  
Development**

28 years of experience in corporate management, with the last 10 years in the junior resource sector.

**Dr. Laura Araneda /  
Director**

New-Brunswick business leader with over 20 years experience in the mining sector. CEO of HIT Drilling.

**Jacques Dion /  
Director**

Over 30 years of experience in environmental assessment and waste management. Extensive experience partnering with First Nations communities.

**Michel Fontaine /  
Director**

Entrepreneur with > 20 years working in the mining sector. Founder of Windfall Geotek (TSXV: WIN).

**Richard Thibault, P.Eng. /  
Director**

Over 42 years experience in mining engineering, operations, management and consulting in North & South America and Southeast Asia.
